

## **E-Seminerler**

03 Kasım 2011: The Colloquies of the Institute for Nanotechnologies and Alternative Energy Sources-Solar Energy Valuation

25 Kasım 2011: The Colloquies of the Institute for Nanotechnologies and Alternative Energy Sources-Energy Efficiency

09 Aralık 2011: Solar PV- Practical Application

3 Şubat 2012: Asst. Prof. Dr. Burak Barutçu – Scientific Activities of Renewable Energy Division in Energy Institute of Istanbul Technical University

16 Şubat 2012: Dr Süha Yazıcı (UNIDO-ICHET) -Hydrogen and Fuel Cells Projects in Turkey

15 Mart 2012: The Role and Place of Renewable Energy Sources in a Holistic Power System of the Country

5 Nisan 2012 Rachier Vasile - Pumping System for Drinking Water Supply  
Ion Muntean - Energy Efficiency in Public and Residential Buildings

10 Mayıs 2012: Geo Information Technology in Energetics, the Use of Wind Energy for Green Transport

14 Ocak 2013: Prof. Dr. Enrico Sciubba -Energy Engineering and Environmental issues: a global, resource-based approach

22 Ocak 2013: Student Presentations -Renewable Energy Sources for Sustainable Development

27 Şubat 2013: Prof. Dr. Alim Mazinov “Heating installation, systems and air conditioning with solar energy”, course prepared by Prof. Eden Mamut;  
Sergey Gapon, master student “Determining the optimal location of solar power plants”;  
Aleksy Shevchenko, master student "Peculiarities of functioning modern solar cells".

6 Mart 2013: Prof. Dr. Alim Mazinov “Heating installation, systems and air conditioning with solar energy” Solar collector, course prepared by Prof. Eden Mamut;  
Aleksy Shevchenko, master student, "Peculiarities of functioning modern solar cells";

Nchotebah Kenduanyi Thomas, master student, "Ecosystem potential of cameroon and its uses in agriculture and forestry".
